Our journey began in 1965 with the inception of “Shri Vishvakarma (Emery Stones) Industries” by Mr. B.M. Choyal and Mr. R.D. Sharma. The two visionaries brought about a revolution in the field of Flour Mills & Emery Stones. CHOYAL introduced the Flour Mills & Emery Stones in the world market in competition with Danish products. We were the very first exporter from India in this sector (1970) and the unit was awarded “Certificate for Excellence in Export” year after year.

In 1977 the unit decided to incorporate the same as Private Limited Co. under the name & style of “Shri Vishvakarma (Emery Stones) Industries Pvt. Ltd.” Since then, we have excelled and lived up to the highly benchmarked SLAs (Service Level Agreements) in both quality and production. We have been industry leaders for 51 years now in the Flour mills and Emery Stones Manufacturing Industry.

Our robust infrastructure, end-to-end in-house manufacturing process coupled with skilled team enables us to achieve very high quality, cost effective and a faster production. Our uniquely designed infra structural units are fully environment-friendly, green & solar enabled. Our highly capable team can execute multiple turnkey projects at any given point.

“Shri Vishvakarma (Emery Stones) Industries Private Limited” offers a wide variety of Flour Mills, Emery Stones and Grain Processing Machinery. Our variety and quality makes us the best in the industry. We are grateful for the multitudes of awards, recognitions as well as the support we receive from our customers, industry peers and society.

TURNKEY SOLUTIONS

We offer turnkey project solutions, from concept to commissioning, layouts to detailed engineering, thus incorporating a variety of technical and non-technical services and processes. Our service helps you get exactly what you want without stretching your limits. We offer turnkey solutions for micro-mini modules of 20 TPD to 600 TPD Capacities, including mini atta plants. These projects use compact space and reduce manpower utilization producing high quality. At CHOYAL, we value your time and have a shorter implementation schedule. We focus on quality and have the ability to train your manpower. Our process expertise allows us to successfully offer clients cereal, grain cleaning and grading plant. Our machines are capable of efficiently meeting the demands of pre-cleaning, fine cleaning & grading by sizes. Its precision functioning also allows complete segregation of unwanted particles that ensures the final product offered is refined, high-quality clean material, which can then be used for various further processes.

Spectrum ERP

Emphasis on Flour Mill. Being a complete business ERP solution, provides real-time solution to control all processes such as: Production data & MIS, Quality control, Sales & Distribution, Finance & Accounting, Material Management, Maintenance, Logistic Planning, HR Management, Payroll and many more. Spectrum smartly manages and acquires the data from various inputs points like grain & atta silos, weigh bridge, milling machines & flow controllers for accurate and error free reporting of statistical data.

CHOYAL

CHOYAL SCHOOL OF MILLING TECHNOLOGY

We have a wide spectrum of Certificate & Diploma courses to empower and transform not only young rural youth but also practicing milling professionals from both India and abroad. Our unique approach to curriculum, programmes, holistic Education, training and research allows CSMT to ensure development of competent, responsible, innovative professionals in the Flour Milling industry. We impart conceptual training at our training center and on – job training in production center located at Arjunpura, Ajmer (Raj.).
